The Mission
Health Care for All-Oregon’s mission is to create a comprehensive, equitable, affordable, publicly funded, high quality, universal health care system serving everyone in Oregon and in the United States.

The Need
People in Oregon are suffering, dying and facing bankruptcy because our health care system is failing them. It especially fails communities facing cultural and ethnic inequities. Obamacare will help, but not sustainably or nearly enough.

The Vision
Our vision is a health care system that:
- Ensures comprehensive, high-quality health care for all;
- Provides care based on patients’ needs rather than profits, focusing on prevention, effective treatment, and improved medical outcomes;
- Is publicly financed, directing resources to medical care and minimizing administrative expenses and waste.

WHAT WE DO
We’re building a statewide movement to bring publicly funded health care to Oregon. Here’s how...

ADVOCATE
We will introduce the universal access to health care bill again in the 2015 legislative session, and vigorously lobby for it. We are also preparing a ballot measure campaign.

ENGAGE
Volunteer engagement is the backbone of HCAO. Volunteers hold house parties, circulate statements of support, speak to groups, participate in parades and fairs, hold rallies, and more...

ORGANIZE
We connect people all over the state to step up and work for change. We are establishing chapters in communities throughout the state. We are also forming caucuses among faith communities, small business owners, labor, health care providers, and communities of color.
